

Alpha
Psychological
Services, P.C.

ALPHA'S 25TH ANNIVERSARY 1983-2008

Twenty five years ago, Drs. Tom and Mary Clark founded Alpha Psychological Services, P.C., at a little office on Six Mile Road and Middlebelt in Livonia, with the two of them. In 1990 Alpha moved to Six and Haggerty, with two more doctors on board. In 1995 we moved to a bigger suite at the same address with the doctors now numbering six. Two years ago, we moved to Northville (still staying on Six Mile!) to accommodate an expanded staff of nine doctors.

"It is great that now we can provide a specialist for almost anyone who calls," remarked Dr. Thomas Clark, President. "And it is great to have all these experienced, seasoned psychologists around when we need to consult with one another!"

Over the years Alpha has built a network of physicians, attorneys, churches, mental

health facilities, and many others who refer people to Alpha. A lot of time, lunches, and team building have gone into developing this network.

Alpha Psychological Services also networks with physicians, psychiatrists, dietitians, and other support services to make sure our patients receive all the support and help they need.

"When we opened Alpha, and looked at possible names, we chose 'Alpha' because it means 'beginnings.' It was our hope then, and still is, that when people come to Alpha they will create new beginnings for their lives that will be stronger, happier and healthier," reflected Dr. Mary Franzen Clark, Associate Director. "It has been wonderful and exciting to see this happen during the past 25 years."

Happy Anniversary, Alpha!
